MADE IN EU design by KD

FFR1500500 1500x500mm

profili in alluminio anodizzato color argento, angoli in metallo pressofuso color argento opaco.

silber eloxierte aluminiumprofile, silbermatt veredelte metall-druckguss-eckverbinder

silver anodized aluminium profiles, silver matt plated zamac edge connectors

FFR2000800 2000x800mm

FFR20001000 2000x1000mm

FFR25001500 2500x1500mm

profili in alluminio anodizzato color argento, angoli in metallo pressofuso color argento opaco, connettori delle traverse in materiale plastico.

silber eloxierte aluminiumprofile, silbermatt veredelte metall-druckguss-eckverbinder, traversen-verbinder aus kunststoff

silver anodized aluminium profiles, silver matt plated zamac edge connectors, synthetic cross beam connectors

FFR25002500 2500x2500mm

FFR30002500 3000x2500mm

profili in alluminio anodizzato color argento, angoli in metallo pressofuso color argento opaco, connettori delle traverse in materiale plastico.

silber eloxierte aluminiumprofile, silbermatt veredelte metall-druckguss-eckverbinder, traversen-verbinder aus kunststoff

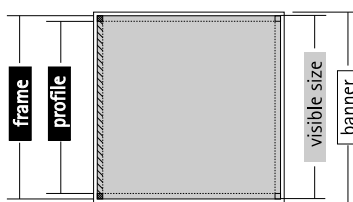

silver anodized aluminium profiles, silver matt plated zamac edge connectors, synthetic cross beam connectors

**IT** framframe è un sistema di esposizione per tessuti multifunzionale: può essere utilizzato a parete o autoportante, grazie alle apposite basi, può essere mono o bifacciale. i profili in alluminio anodizzato color argento sono dotati frontalmente di apposite cave per fissare il tessuto rivestito di strisce di silicone. frontalmente il profilo è visibile per soli 2mm, un cornice elegante ma discreta. internamente la struttura può essere irrobustita grazie a delle traverse di alluminio, che si possono aggiungere al sistema in qualsiasi momento, senza doverlo smontare.

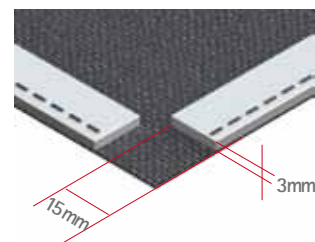

**DE** framframe system für stoffbanner können sie wandmontiert oder freistehend mit sockelplatten, ein- oder zweiseitig verwenden. die silber eloxierten aluminiumprofile haben frontal entsprechende einstecknuten für textilbanner mit silikonlippe. frontal verbleiben vom aluminiumprofil nur 2mm als elegante umrahmung des banners sichtbar. versteift wird das system mit aluminium-traversen, die jederzeit ohne demontage des rahmens positioniert werden können.

**EN** framframe system for fabric banners can be used single or double-sided as free-standing floor display or wall mounted. the silver anodized aluminium extrusions have on the front the required notches to insert textile banners with a silicone seam. only 2mm of the aluminium profile will remain visible, thus elegantly framing the banner. the system can use struts as cross beams made of silver anodized aluminium, that can be positioned every time without any disassembling of the frame to keep the banner under tension.

frame length = profile + 60mm

banner = visible size + 20mm

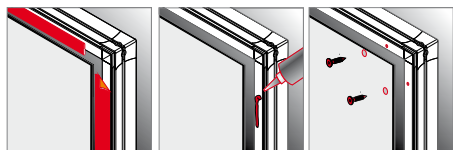

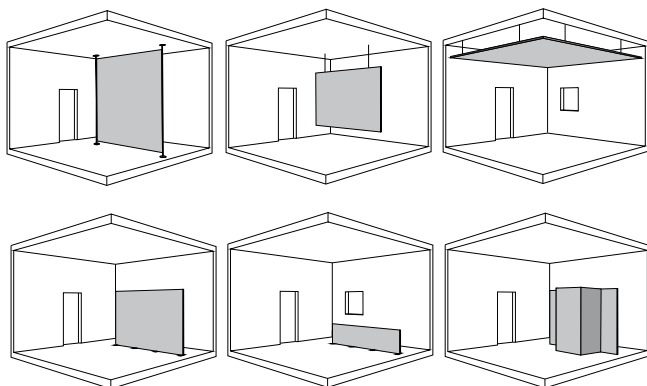

l'aggiunta delle traverse , grazie all'intelligente sistema ad incastro, è possibile in qualsiasi momento.  
 einsetzen der traversen dank cleverem stecksystem jederzeit möglich  
 cross beams can be mounted anytime thanks to the clever plug system

inserire il banner di tessuto con le strisce di silicone partendo dagli angoli

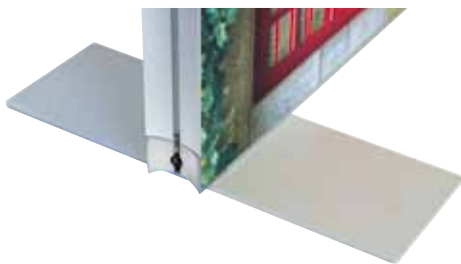

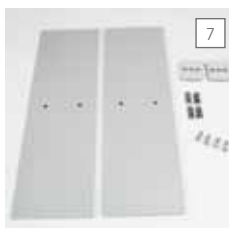

stoffbanner mit silikonlippe von den ecken ansetzend frontal einsetzen

textile banners are mounted easily with silicone seam starting from the edges

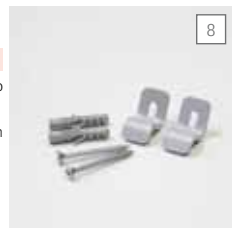

### freestanding

**FFRB300100**  
 base di appoggio in metallo verniciato color argento  
 bodenplatte aus silberlackiertem metall  
 floor plate made of silver varnished metal

### on the wall

**FFRWS**  
 fissaggio murale in metallo verniciato color argento  
 wandhalter aus silberlackiertem metall  
 wall support made of silver varnished metal
