IT tower dacapo è quasi uguale al ns. tower, girevole in tutte e due le direzioni e adatto per tutti gli accessori della linea magic. cosa rende diverso il tower da capo sono le fresature che permettono anche di applicare i 3 formati della tasca da capo.

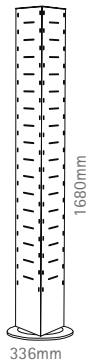

DE der tower dacapo ist gleich ausgestattet, ebenfalls frei drehbar und zu ihm passen auch alle accessoires der magic serie. was ihn unterscheidet, sind die fräsungen, die zusätzlich den einsatz aller drei formate der da capo prospektaschen ermöglichen.

EN tower dacapo is made just the same as tower, also freely rotatable and matching for all the accessories of the magic series. what makes him special are the notches that allow also the attachment of the da capo brochure trays in all the 3 available sizes.
